

PROJECT DESCRIPTION

RE&LS performed the 2016 three year reinspection of approximately 60 buildings comprised of approximately 5.5 million square feet of total area for the Rochester City School District. This scope included reinspection of all friable and non-friable known and assumed asbestos containing building materials (ACBMs) in each District building.

The inspection was conducted in order to determine if there has been any change in the condition of the ACBM, under the Asbestos Hazard Emergency Response Act (AHERA)

Owner: Rochester City School District

Client: Rochester City School District

Services Provided: Environmental Engineering Services

Completion Date: 2016
